

NMU Lab Specimen Requisition Form

Patient Name: <u>Pasteur, Louis</u>		Date of Birth: <u>06/05/78</u>
Medical Record Number <u>708635</u>		Sex: <u>M</u>
Collection Date: <u>6/11/24</u>	Specimen Type/Source: <u>oral abscess</u> <u>swab</u>	Ordering Provider: <u>Dr. Renaldi</u>
Collection Time: <u>13:05</u>		
Diagnosis: <u>sore in mouth</u>	Is the patient receiving antimicrobial therapy? <u>no</u>	
Tests Ordered: <u>routine aerobic</u>		

For laboratory staff only:

Time Received in Lab: 13:30

Is specimen acceptable? yes

If no, please note rejection criteria _____

If no, notified: _____

NMU Simulation Lab Microbiology Work Card

Culture ID	Date Collected:	Priority:	Patient Name:	Patient ID No:	Patient Doctor:
11	6-11-24	Active	Pasteur, Louis	708035	Dr. Rendell
	Time Collected:	Tech:	Patient DOB:	Patient Sex:	Patient Diagnosis:
	13:05	MC	6-5-78	M	Sore in mouth

Specimen/Source:

Oral access swab

Direct Grain Stain	Specimen Type: (circle)	Blood Aerobic	Blood Anaerobic	CSF	Urine	Sputum	Genital	Routine Aerobic
WBCs	None seen	Culture Readout (Reported)						
EPs	None seen	Culture in progress						
GPC	4+	4+ Staphylococcus Aureus - sensitive in progress						
GPB	None seen	4+ Staphylococcus Aureus - sensitive reported						
GNC	None seen							
GNB	None seen							
Other:	N/A	4+ Staphylococcus - sensitive complete						
		Date:	Time:	Critical Results Called to*: Format: "Result" called to Dr. X @ time, date, initials, "Read back ok"				
		6/12/24	8:00					
		6/13/24	8:10					
		6/14/24	8:25					

* For NMU sim lab we are calling criticals for pos gram stains on CSFs and Blood cultures.

Culture work-up: (Internal) **NOTE DATES OF TESTING**

Colony description (Isolate): med white Beta

Biochemical reactions noted:
- Gram pos cocci - clusters
- catalase pos
- staph latex pos
- coagulase pos
